2 Service Descriptions and Rates (cont'd)

2.2 Local Digital Service

A The Company's local digital service is a Digital Trunk Service which provides a Customer with a connection to the Company switch via a DS1 digital facility with 24 voice grade channels. Digital Trunks are provided for connection of Customer-provided PBX equipment or trunk-capable key systems to the Company's facilities.

2.2.1 Rates

	Non-Recurring	Maximum Monthly Recurring	(T)
	Charge	Charge:	
Per Channel (DS0)	\$135.00	\$125.00	(N)

2.3 ISDN-PRI

ISDN-PRI is an alternative arrangement of Local Digital Service. ISDN-PRI is a set of standards that establish compatibility between the public switched telephone network and various data terminals and devices. ISDN-PRI can provide users with multiple services through a single access point and can integrate voice, data, imaging and messaging. Global Crossing offers ISDN-PRI for voice applications only.

Service consists of 23 "B" channels and a single "D" channel that carries the control and signaling information.

Customer premise equipment ("CPE") that is compatible with ISDN interface is the responsibility of the Customer. The Company is not responsible if any changes in the provisioning of ISDN-PRI result in the obsolescence of the Customer's equipment or the need for the Customer to modify or change the CPE. The Customer's terminal equipment and interconnection through non-digital central offices may cause transmission speeds to be slower than the maximum achievable.

ISDN-PRI is subject to the availability of Company facilities.

2.3.1 Rates

Pricing is per D-channel

Non-recurring charge: \$3,500.00 maximum

Monthly recurring charge: \$450.00 maximum

Expedite Charge: \$1,200.00 Maximum

(N)

2.4 Foreign Exchange Service

The Customer may opt to have service furnished from an exchange other than the one in which they are located. This service arrangement is to be furnished under special conditions where it is warranted by the circumstances involved. The Company does not obligate itself to furnish these services, particularly when it involves undue expense or impairment of the service furnished to other customers. The following monthly recurring charge will apply per T-1 equipped with the service:

\$200.00 maximum

2 Service Description and Rates (cont'd)

2.5 DID Numbers

- A Telephone numbers are furnished in blocks of 20 or 100. Blocks of number groups will be determined at the sole discretion of the Company's resources. Whenever possible, the Company will attempt to provide telephone numbers arranged consecutively in a group, but will not guarantee nor accept responsibility for provision of such an arrangement within or between a block of numbers. In addition, the Company reserves the right to review vacant DID stations or stations not in use to determine efficient telephone number utilization. Should the Company determine, based on its own discretion, that there is inefficient number utilization, the Company may reassign the DID numbers.

The Customer has no property rights to the telephone number or any other call number destination associated with DID service furnished by the Company. The Company reserves the right to change such numbers assigned to the Customer whenever the Company deems it necessary to do so in the conduct of its business.

Where all numbers in a group have not been connected for service, the Customer is responsible for providing interception of calls to vacant or non-working assigned station lines or telephone numbers by means of attendant intercept or recorded announcement service. The Company will not terminate these numbers to an intercept message on the Customer's behalf.
